

LIST OF TABLES

Table 2-1 Summary of ASAP Conceptual Design Changes and Design Refinements 12

Table 2-2 Chemical Composition of Gas to be Transported 16

Table 2-3 Mainline Containment Pressure 19

Table 2-4 ASAP Material Site Locations and Characteristics 25

Table 4-1 Comparison of the Proposed ASAP Route Bypassing Denali National Park and Preserve and the 2012 Alternative Route through DNNP (USACE, 2012) 46

Table 4-2 Cumulative Stream Width Crossed by the Proposed ASAP Centerline Outside of Denali National Park and Preserve 47

Table 4-3 Cumulative Stream Width Crossed by the 2012 Alternative Route Transecting Denali National Park and Preserve 47

Table 5.1-1 Comparison of Material Needs and Sites for the Alaska Stand Alone Pipeline Project 52

Table 5.2-1 ASAP Project Waterbody Crossings and Characteristics 57

Table 5.3-1 Aboveground Impacts to Vegetation Communities (Acres) Within the Project Footprint 89

Table 5.4-1 Wetland Subclasses within the National Wetlands Inventory Classification Hierarchy 98

Table 5.4-2 Total Project Footprint Impacts to Wetlands, by Cowardin Classification 103

Table 5.4-3 Impact to Wetlands Due to Access Roads and Ice Access Roads (Acres) 105

Table 5.4-4 Impact to Wetlands Due to Camps (Acres) 107

Table 5.4-5 Impact to Wetlands Due to Construction of the Pipeline, on Right-of-Way (Acres) 108

Table 5.4-6 Impact to Wetlands Due to Stream Crossings (Acres) 110

Table 5.4-7 Impact to Wetlands Due to Facility Pads (Acres) 111

Table 5.4-8 Impact to Wetlands Due to HDD Entry and Exit Pads 112

Table 5.4-9 Impact to Wetlands Due to HDD False Right-of-Ways 112

Table 5.4-10 Impact to Wetlands Due to Material Sources 113

Table 5.4-11 Impact to Wetlands Due to Pipe Storage Yards 115

Table 5.4-12 Impact to Wetlands Due to Railroad Sidings 116

Table 5.4-13 Impact to Wetlands Due to Temporary Workspaces 117

Table 5.4-14 Use of Existing Roads to Avoid Wetlands (Acres) 118

Table 5.4-15 National Wetlands Inventory Wetland Classes within the Nominal 53-foot Permanent Right-of-Way 123

Table 5.4-16	Hydrogeomorphic Functional Class of Wetlands within the Nominal 53-foot Permanent Right-of-Way	124
Table 5.6-1	Alaska Stand Alone Pipeline Fish Stream Crossings	139
Table 5.8-1	Endangered Species Act Protected and Candidate Species Potentially Occurring In or Near the Proposed Project Area.....	173
Table 5.9-1	Land Ownership Crossed by the Proposed Alaska Stand Alone Pipeline Project Centerline in Miles – Comparing Final Environmental Impact Statement Alignment to Revised Alignment.....	184
Table 5.9-2	Total Land Use - ASAP Project Footprint (Acres)	185
Table 5.9-3	Revised Statute 2477 Right-of-Way Intersected by the Proposed Project	187
Table 5.9-4	Changes in Revised Statute 2477 Intersections from Final Environmental Impact Statement to Revised Project.....	188
Table 5.11-1	Miles of Pipeline in the East Alaska Resource Management Plan by Visual Resource Management Inventory Class	194
Table 5.12-1	Population and Housing	208
Table 5.12-2	Average Wages per Worker, 2013	209
Table 5.12-3	Employment and Workers by Industry, 2013.....	211
Table 5.12-4	Alaska Business Licenses.....	214
Table 5.12-5	Electric Power Source, Power Cost Equalization Program, and Home Heating Fuels 215	
Table 5.12-6	Estimated Household Heating and Electricity Costs.....	219
Table 5.12-7	Local Government Revenue Sources, 2012	220
Table 5.13-1	Documented Alaska Heritage Resources Survey Sites Located within the Proposed Project Corridor (Direct Area of Potential Effect) and within 1 Mile (indirect Area of Potential Effect) of Proposed Project Ancillary Facilities	238
Table 5.15-1	Proposed Work Camp Housing and Nearest Communities	261
Table 5.15-2	Fatal and Nonfatal Injuries Associated with Truck Haulage of Pipeline	263
Table 5.16-1	Pipeline Construction Equipment per Spread.....	267
Table 5.16-2	Potential Camp Operations Maximum 12-month Emissions	270
Table 5.16-3	Gas Conditioning Facility Emission Unit Inventory	271
Table 5.16-4	Gas Conditioning Facility Operations Emissions.....	272
Table 5.16-5	Aboveground Facility Operations Emissions.....	273
Table 5.16-6	Summary Qualitative Comparison of Projects	274
Table 5.18-1	U.S. Army Corps of Engineers Navigable Waterways within the Proposed Project Right-of-Way	280
Table 5.18-2	Summary of Marine Impacts.....	281
